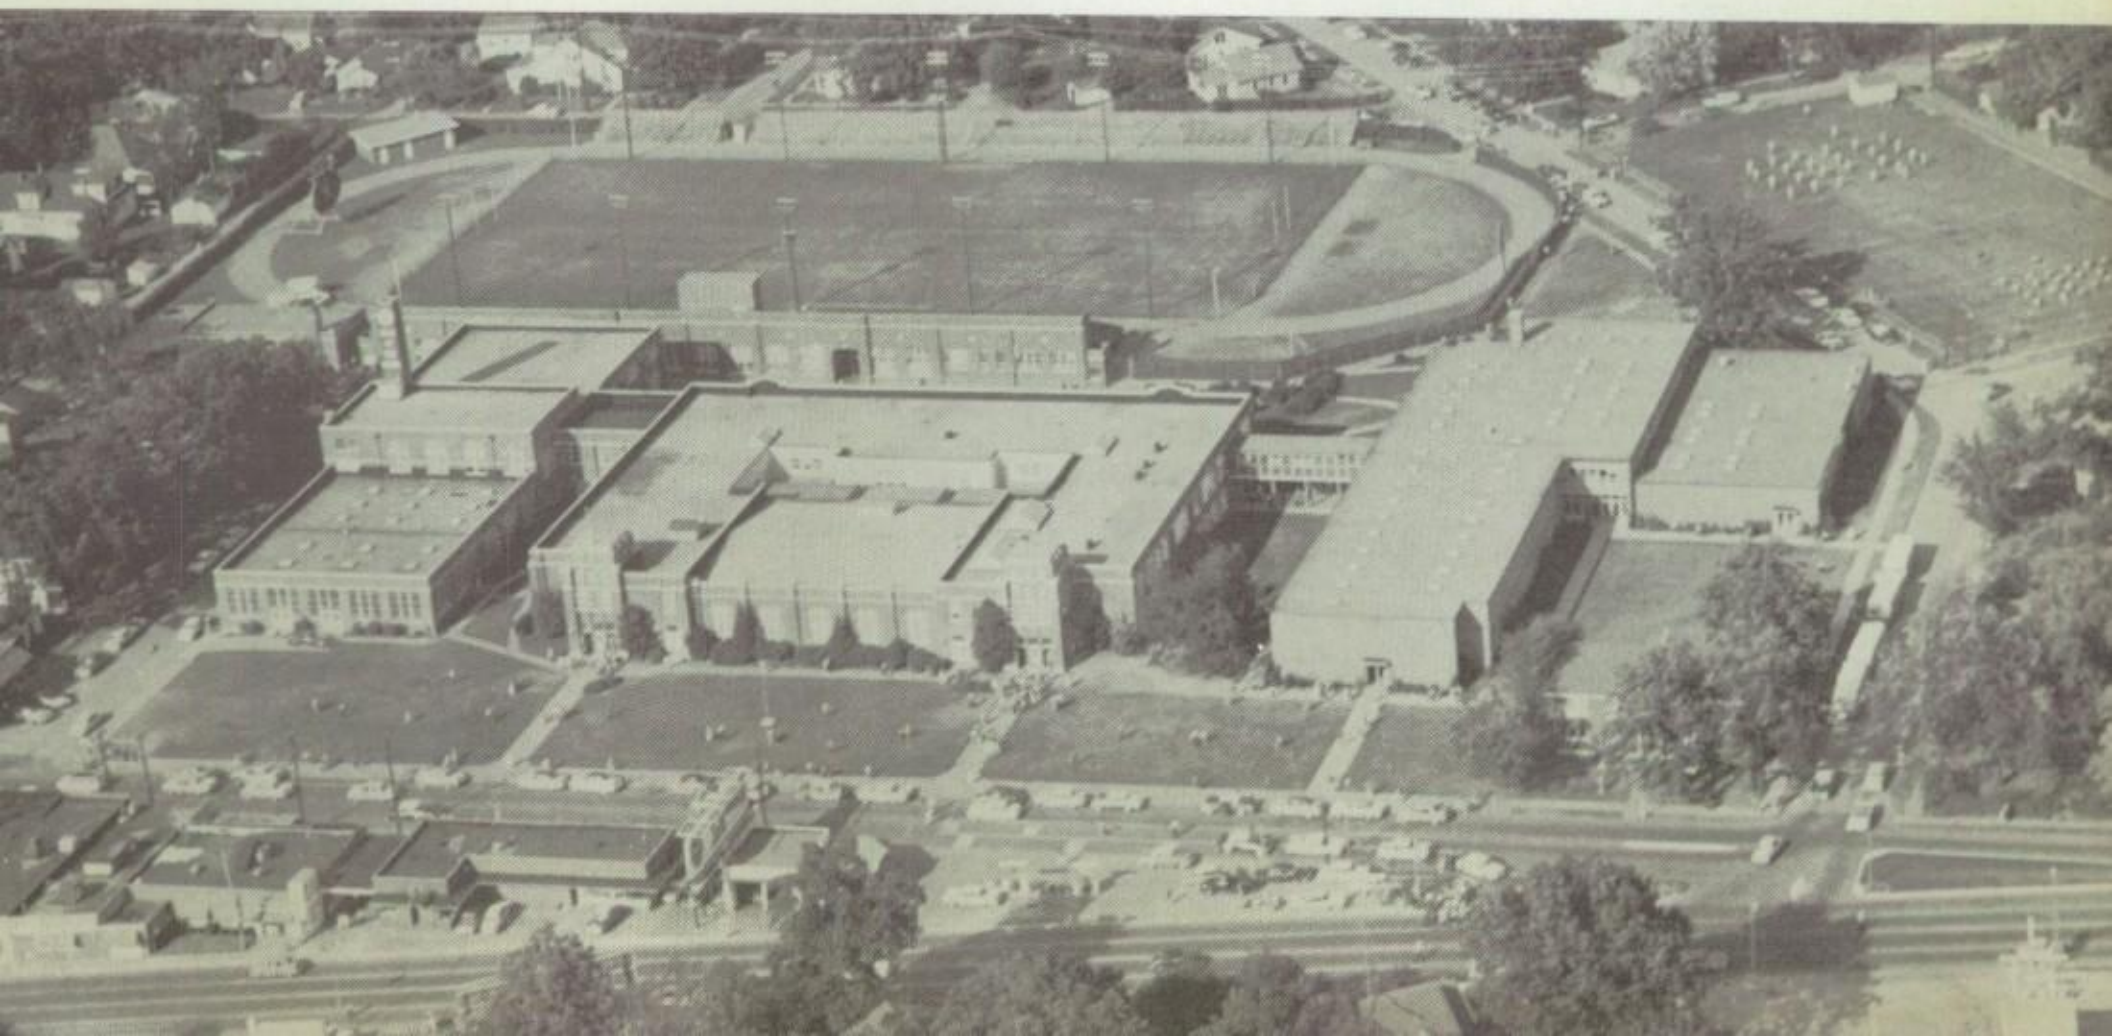
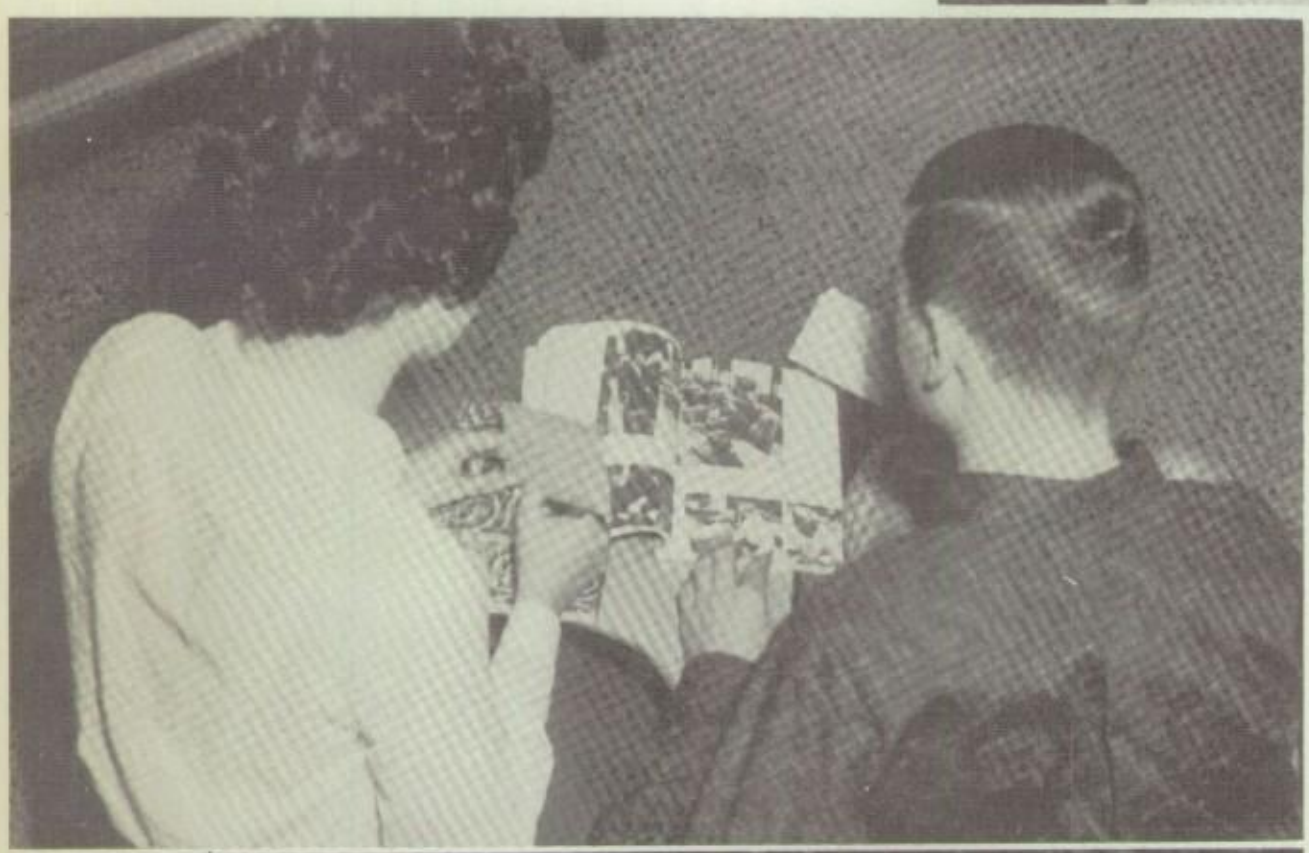
On the next several pages is our effort to convey the impressions a casual visitor might gain from a visit to Fort Smith Senior High School. Here we try to show a bit of history. Above is Belle Grove Elementary School—home of FSHS from about 1886 to 1897. Following that, the high school was housed in one section of the present Darby Junor Hgh School, shown to the left. Below is an aerial view of the present seven-acre campus showing the complete plant.



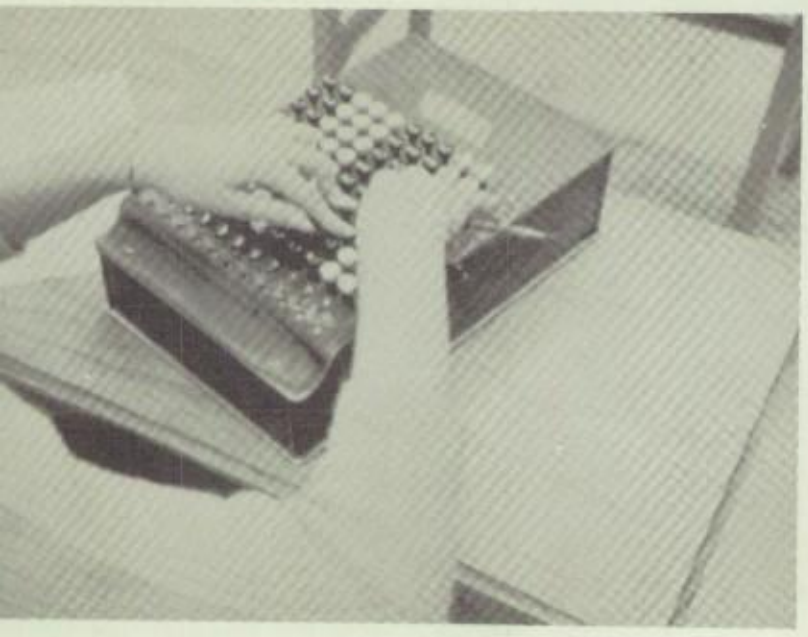
OFFICES! OFFICES! OFFICES! FSHS OFFICES! Here are some of them. Miss Horn, dean of girls, assists Janie Lewis with enrollment. Mrs. Womble directs attendance recording, assisted by student monitors. Kenneth Baty consults Mr. Stewart in the Dean of Boys' office. The registrar, Mrs. Rogers, consults with Joyce Bray, senior, concerning graduation requirements. Dollars cross the desks in the business office, counted and accounted by Mrs. Hoel and Mrs. Speer.

A brief visit to FSHS library leaves the impression of activity. Pupils at the card catalogue, pupils at the vertical or picture files, pupils at the Readers' guide show the library in use.....An occasional social use is made of the room. One such was the "coffee" given by the Junior Red Cross in honor of departing Mrs. Blanche Wiseman, local executive secretary of ARC.....Research paper time and "digging in" for the duration are Sue Talley, Robert Dodd, Rick Rockwood, Eudox Patterson, and David Layne.

What is your Educational Plan? Each student has one on file in the business office. Here, directed by Mrs. Lee, is one being made.....Below, two seniors plan further than high school.



....to the left (continued) are the Merit Scholarship Semi Finalists, Scott and Scott, studying engineering school catalogs....ACT, PSAT, ACE—what have you? Testing goes on in the cafeteria and the serious student really works at it.....Anticipating semester marks at the lunch table—make mine an "F", or with luck a "D"; they "sign-language" the probable outcome.....



Impressions of activity are gained at FSHS. Here are hands—not shown for beauty's sake but to illustrate how hands work in the classroom, shop, or laboratory. One will see hands at a Linotype or typewriter keyboard; or perhaps operating a comptometer or a drill press; it could be hands preparing good food or sewing a fine seam. Shown here are hands doing just those things. At other times in the day these same hands will do other things—. Certainly, there is a variety of activities for hands in FSHS.

GRIZZLY

The Bruin

The Litsmith

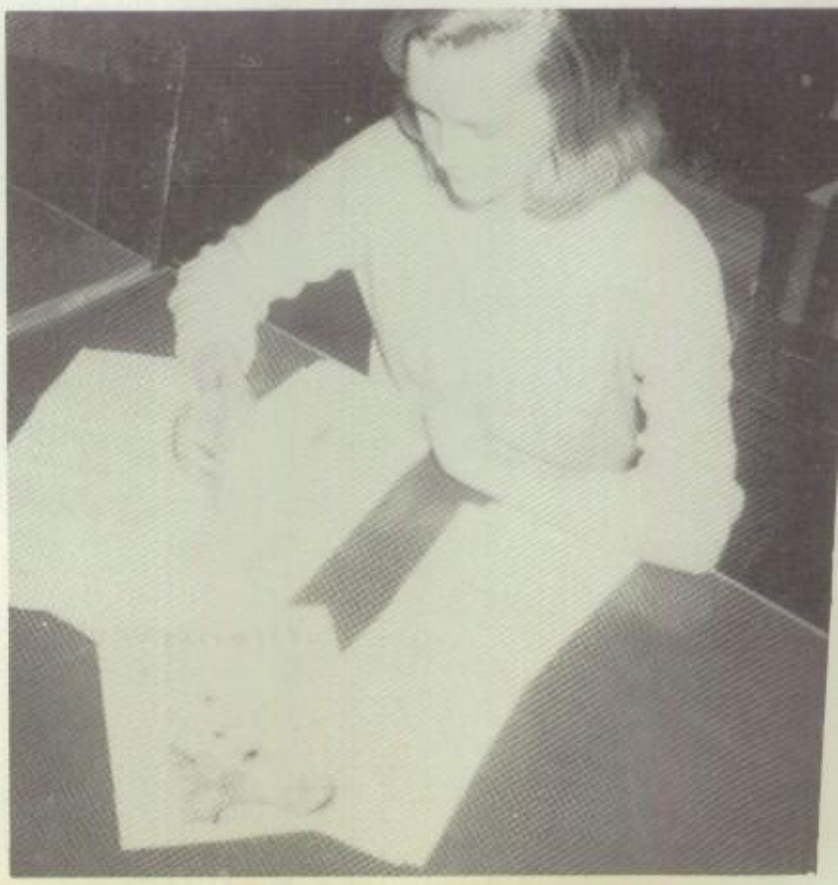
Volume 2 Number 1 November, 1959

If

If people would
do what they could,
how, when and where they should,
the whole world would
be filled with good.

—Sue McConnell, senior

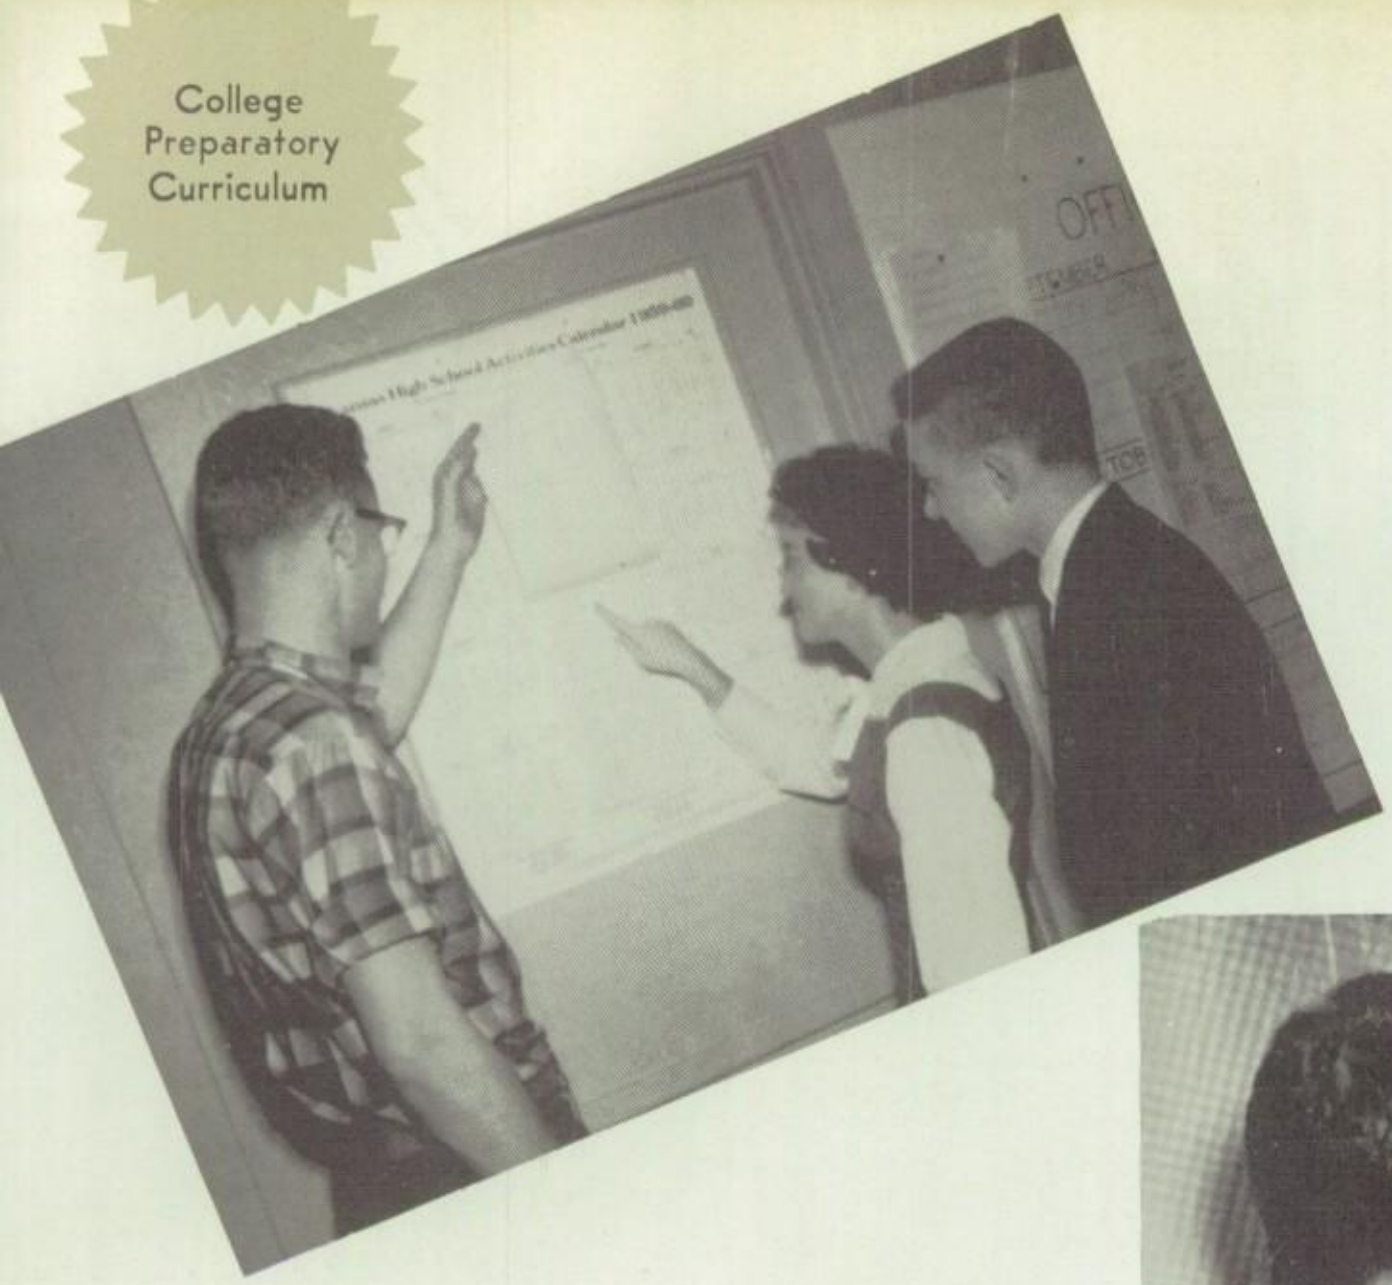
FSHS publications are the GRIZZLY, the BRUIN, and the LITSMITH. Who can estimate the number of hours that goes into each publication? The GRIZZLY, our newspaper, is published every two weeks during the school year. It has achieved All-American rating in national competition.....The BRUIN, our annual, is presented herewith.....The LITSMITH is our literary publication—a vehicle for "writing for print" activities of all high school pupils .....Pictured here are Linda Poynor and Jeanie Plunkett. Linda reads proof for the GRIZZLY, Jeanie for the LITSMITH.

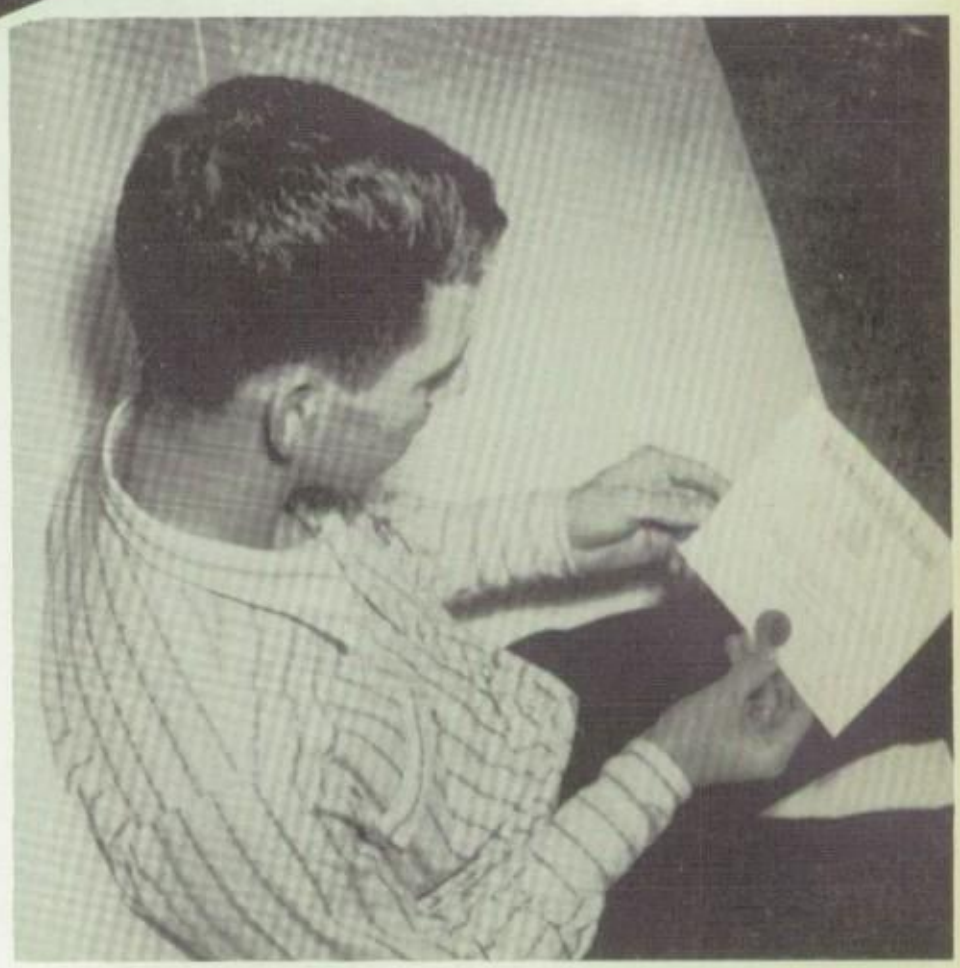


College Preparatory Curriculum

Diploma

Academic Curriculum



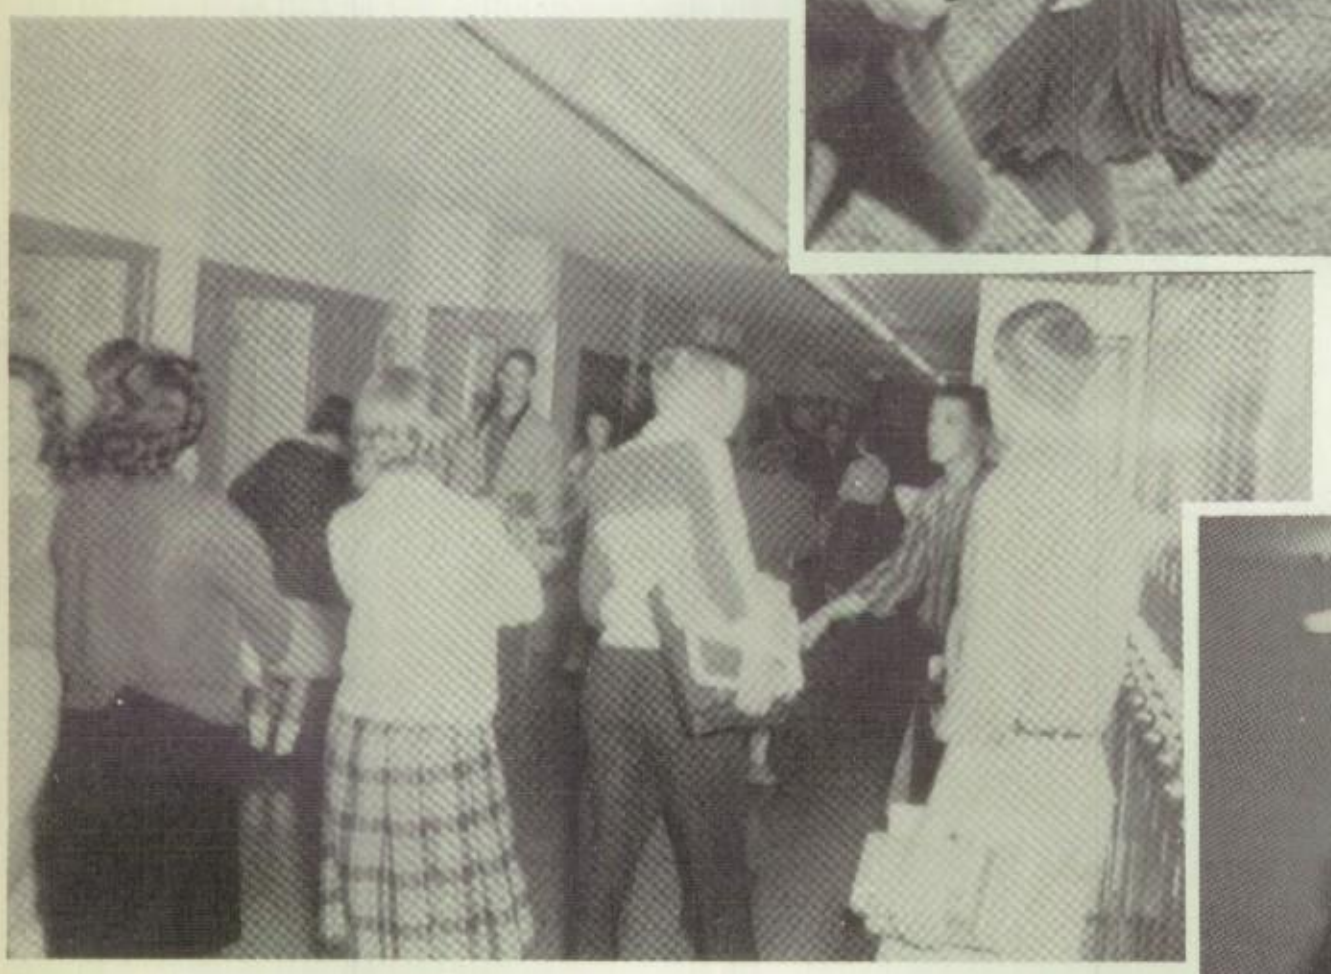


General Curriculum

Graduation nears. That "Senior List" with point averages computed and credits listed is eagerly examined by those hopeful of elegibility for graduation.....Robert Dodd speculates how his name will look on this blank diploma. How did I tell them I wanted my name to appear? .....Measurements now for a cap and gown later. Miss Horn tells Mac McGehee just how big his head really is....and how tall he stands so that he will be fitted just right....Seals—College Preparatory, Academic, General—which one will be on your diploma?

Activity is everywhere evident at FSHS. The basketball team may be preparing to leave by special bus for a conference encounter and the cheerleaders and student body gather to send them off in high spirits.

Again, it may be a passing period when 1850 pupils play their own game of "fruit basket upset."

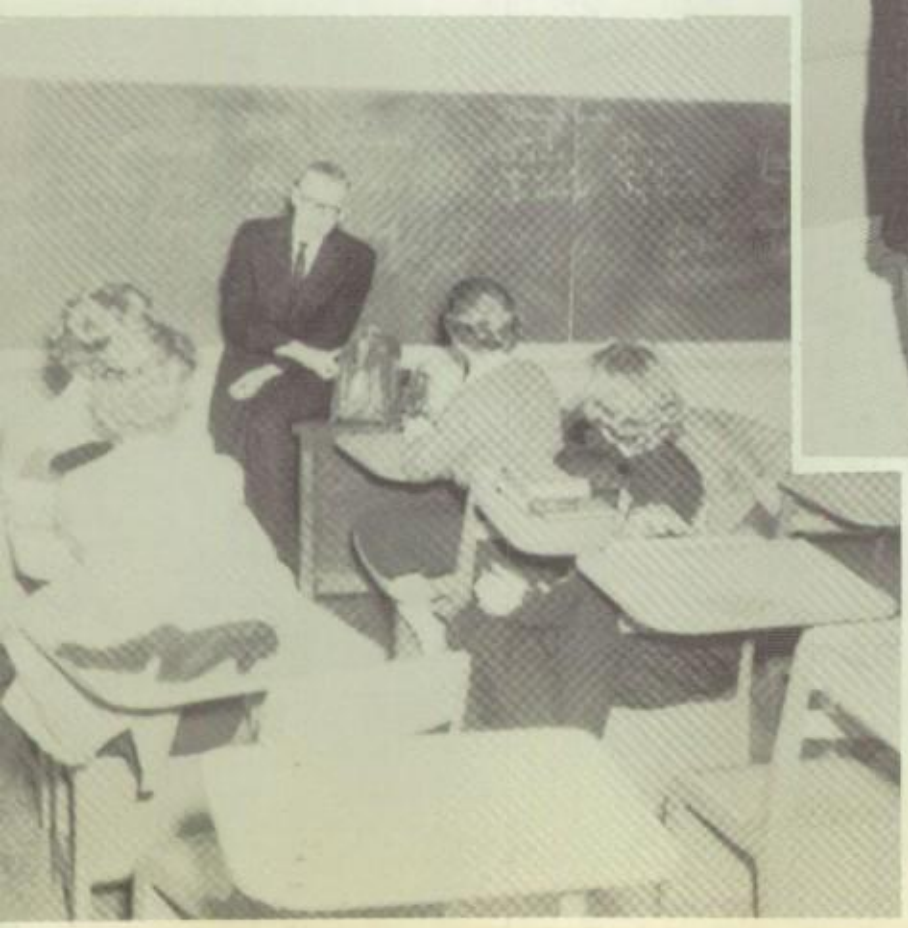


Or it may be a "set" of square dancers in a PE activity program.

American History. Sometimes it comes alive when two girls present a point using the map of our nation—or it may be a special report being readied for television and practiced before fellow classmates.

Art students display their work in the main corridor. The medium will vary—it may be pen and ink sketches (shown) or it may be water color, oils, or something else.

Much of it is good. From the ones illustrated here came those chosen for LIT-SMITH.....



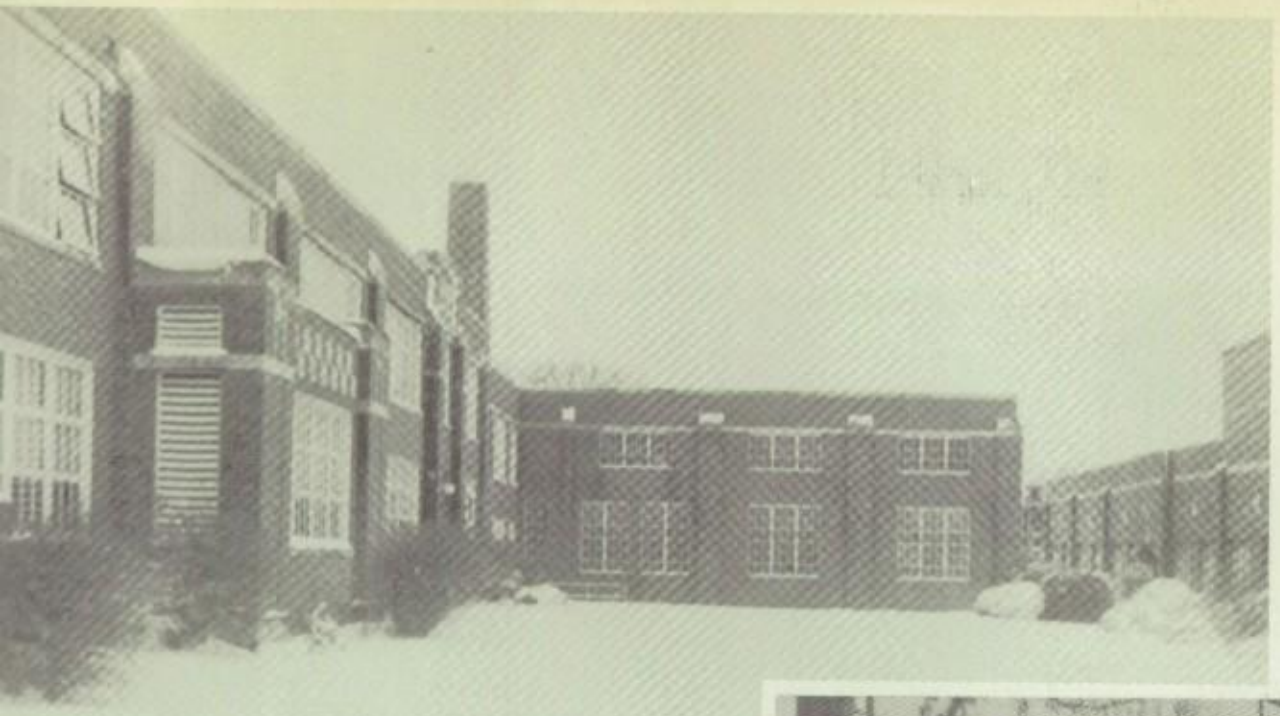
College representatives visit with those seeking admission. These girls may be Hendrix bound.

Sometimes it seems that long set of stairs leading to the Sunrise (ugh) Study Hall is just too much for a sleepy climber.....

What's inside a frog? Biology pupils take a look. Some are still looking for what makes his croak.....

The annual staff frantically approaches the final deadline—and makes it.....

French class pupils put it on the chalk-board as the teacher says it—or do they? At least that is the intent.....



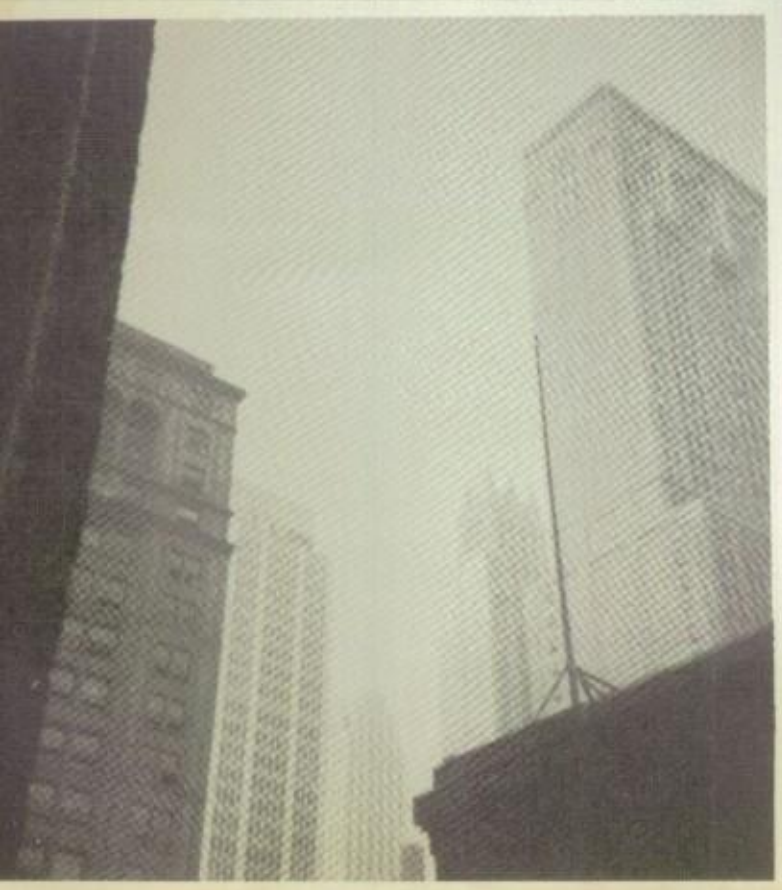
Snow! Beautiful (?) snow. The campus assumes an unreal character when snow falls. For a while the whiteness is soft and wonderful—then it turns into flying snowballs.

and broken windows and injured feelings. Girls in physical education build a snow man.....some dressed for comfort, some otherwise.....

Scenes taken following the February 15 snow. And school did NOT dismiss. What a waste of opportunity!!

Would one want to play football here? It's our own "Squaw Valley" for the ice sports.....

Gotham! Its sights and sounds beckon the Journalism class pupils each year. Purpose: to attend the Columbia University journalism conference. Enroute they visit in Washington and pose for pictures on the capitol steps.



with Congressman Jim Trimble. While in New York City they will likely see Radio City, the tall buildings and many more sights, then home with high honors for THE GRIZZLY.....

TEACHER APPRECIATION DAY.....Teachers are never more appreciated than they are by those students who take their places on this occasion. Here Johnny Shelby "pours it on" a group of helpless students.....P.T.A. Open House attracts hundreds of parents and patrons. They visit the teachers to whom their sons and daughters are assigned. Miss Barnwell tells them what a good pupil will do.....

FSHS Cheerleaders in action at a football pep rally in Grizzly Stadium.....FSHS Old Grads pose with the student body president and the Victory Bell. Many grads return to each pep meeting to spark the team and student body for the game to come.

FSHS Key Club selects a Valentine Sweetheart and then dance in her honor in the school cafeteria. The club president, David Hubbard, poses with Queen Pat Finch. On the floor the guests dance (?) to the music (?) of the Sigma Nu Combo, while a row of faculty and parent sponsor-guests sit on the sidelines..... The Homecoming Queen, Carolyn Schneider, and her court on the football sidelines.....while the Grizzlies trounce Big 9 Blytheville.

ASSEMBLIES! They aren't as easily put together as might appear. Scenes shown are from one of the devotionals held during the year.....A student leader and a visiting minister plan their cues.....

The boys' glee club assists and bows during the prayer....

Student electricians at the switch board help to set the stage properly.....

A visitor, Prof. Jess Ritter, speaks to FSHS students concerning creative writing.....
